

Contract Renewal and Termination Policy

Governs renewal notice windows, auto-renewal controls, and termination procedures.

Document Owner	Contract Management Office	Version	1.0
Review Cycle	Annual	Sensitivity	Internal
Authoritative Source	Yes	Status	Approved

Renewal Notice Windows

Renewal decisions must be made before the notice window closes. The Contract Management Office issues reminders in line with the thresholds below.

Contract Value	Renewal Notice Window	Reminder Issued
Up to \$50,000	30 days before expiry	60 days before expiry
\$50,001 – \$250,000	60 days before expiry	120 days before expiry
Above \$250,000	90 days before expiry	180 days before expiry

Auto-Renewal Controls

Automatic renewal clauses are permitted only where all of the following apply. Any contract failing these conditions must be renewed manually.

- The total contract value is \$250,000 or below.
- The renewal term does not exceed 12 months.
- The contract may be terminated for convenience with no more than 60 days' notice.
- The Contract Management Office has recorded the renewal date in the contract register.

Auto-renewal is prohibited for any agreement involving personal or regulated data, regardless of value.

Termination Procedure

Termination must follow the steps below. Notice must always be issued in writing by the Contract Manager, never verbally.

Step	Activity	Owner
1. Decision	Confirm business intent to terminate	Business Owner
2. Review	Check notice window and exit obligations	Contract Manager
3. Legal check	Confirm termination rights and liabilities	Legal Operations
4. Notice	Issue written termination notice	Contract Manager
5. Closeout	Settle final invoices and return assets	Finance Operations

Early Termination Penalties

Where a contract is terminated before the agreed minimum term, the Contract Management Office must calculate any early-exit charge and obtain Finance approval before notice is issued. Early termination of contracts above \$250,000 additionally requires sign-off from the Chief Financial Officer.
