

Contract Review Procedure

Defines the standard end-to-end workflow for reviewing and approving a contract.

Document Owner	Legal Operations	Version	1.2
Review Cycle	Annual	Sensitivity	Internal
Authoritative Source	Yes	Status	Approved

Review Workflow Steps

Every contract follows the standard review workflow below before it can be signed. The workflow ensures the right approvals and Legal checks happen in the correct order.

Step	Activity	Owner
1. Intake	Log contract in register, capture metadata	Business Owner
2. Completeness check	Confirm required documentation present	Procurement Ops
3. Legal review (if triggered)	Apply Legal Escalation Guidelines	Legal Operations
4. Approval	Route per Approval Matrix	Required Approver
5. Signature	Execute and store signed copy	Business Owner
6. Record & obligations	Capture renewal / obligation dates	Contract Manager

Turnaround Targets

- Standard-template contracts: 3 business days.
- Non-standard contracts requiring Legal review: 7 business days.
- Contracts above \$500,000: timeline agreed case-by-case with Legal and Finance.

Post-Signature Obligations

After signature, the Contract Manager must record renewal dates, termination-notice windows, and key obligations so that reminders can be generated ahead of each deadline.
